

Data Loading Made Easy

Jitterbit Data Loader for Salesforce is a free data migration tool that enables Salesforce administrators to quickly and easily automate the import and export of data between flat files, databases, and Salesforce. The next generation Data Loader dramatically reduces the time and effort required to automate the movement of critical business data in and out of Salesforce with built-in scheduling that allows users to 'set it and forget it'.

Whether you're importing new marketing leads, exporting sales data for advanced business intelligence, or updating account and contact information from database sources, Jitterbit Data Loader for Salesforce provides the easiest and most functional tool available – for FREE!

Jitterbit Data Loader for Salesforce includes:

Powerful Data Operations

- Wizard-based point & click configuration
- Support for Insert, Update, Upsert, Query, Delete, Hard Delete and Bulk operations
- Save, edit, and re-use operations, connections, and data mappings.

Enhanced Connectivity

- Support for flat files with any delimiter
- Connect to any ODBC or JDBC database
- Complete web services support, including the Bulk API

Advanced Functionality

- Excel-like functions allow you to transform your data, including concatenations, substrings, and trims.
- Parallel processing provides unmatched performance, including support for Bulk loads.

Easy Automation & Management

- Set operations on a schedule to automate data loads
- Management console provides full logging and operation history

Key Benefits

- Maximize your Cloud investment with rapid and easy to configure import/export of critical business data in and out of Salesforce.
- Significantly improve operational efficiencies by automating common processes.
- Rapidly import new sales leads, update accounts, or export marketing data into analytics applications.
- Provide a consistent view of customer and account information across the organization.
- Eliminate IT dependence for data loading tasks with tools designed for the Salesforce Administrator.
