

# The Harmony AI Bundle

Everything you need to accelerate your agentic AI journey — simply and securely

The Jitterbit Harmony AI bundle brings together intelligent automation and agentic AI for secure, scalable AI deployment with expert support.

- **Unified, AI-infused Jitterbit Harmony Platform**  
Access to the powerful capabilities in the Jitterbit Harmony Platform.
- **Faster AI Deployment**  
One pre-built, enterprise-hardened AI agent (Sales, HR or Knowledge Agent) — or the option to leverage Jitterbit professional services to build a custom agent.
- **Immediate Productivity Gains**  
Whether prebuilt or custom, Jitterbit AI agents are designed to automate complex and routine tasks.
- **AI Assistants for Smarter Development**  
Build and manage integrations, apps and APIs faster with natural-language AI guidance.
- **Expert-Led Implementation**  
Leverage 60 hours of Agentic AI Professional Services to help ensure successful deployment.

- **Enterprise-Grade Security & Compliance**  
Agents are delivered with strict security controls and AI governance anchored in your own data.
- **Scalable & Customizable**  
Start with a focused use case and scale across departments from within the Harmony platform.

## Agentic AI and Intelligent Automation at Scale — All in One Platform

The low-code Jitterbit Harmony platform allows even nontechnical users to build, automate and scale critical systems faster. Jitterbit's capable AI agents autonomously execute tasks to support critical business processes, while powerful AI assistants guide users in building and managing integrations, apps and APIs.

By unlocking orchestration of complex workflows with greater visibility and control, Harmony empowers you to streamline operations, simplify workflows and boost productivity — so you can move faster, innovate confidently and unlock measurable value at scale.

### The Jitterbit Harmony AI Bundle: Everything You Need For Intelligent Automation & Applications

#### Unified platform

Enable intelligent automation, seamless and scalable integrations, and accelerated time-to-value by leveraging the full capabilities of the low-code Jitterbit Harmony platform. It brings together data integration, app development and API management, as well as comprehensive monitoring, analytics and reporting via the Management Console.

#### AI-powered app development and integration

Build new applications, workflows and APIs faster with guidance from Jitterbit AI assistants.

#### Prebuilt, enterprise-ready AI agents

configured and tailored to your environment:

- *Sales Agent*: Effortlessly surface account data, deal information and more to empower your sales team.

- *HR Agent*: Automate onboarding, training, IT support and more to simplify and enhance employee experience.
- *Knowledge Agent*: Unlock enterprise knowledge instantly by accessing data across systems, apps, data sources and repositories — eliminating data silos and delays.

#### Professional Services with AI expertise

Get 60 hours of expert-led agentic AI professional services to help you scope, develop and deploy agents quickly and securely — with hands-on support at every stage to reduce implementation time and accelerate ROI.

## Built with Robust Security & Governance at the Core

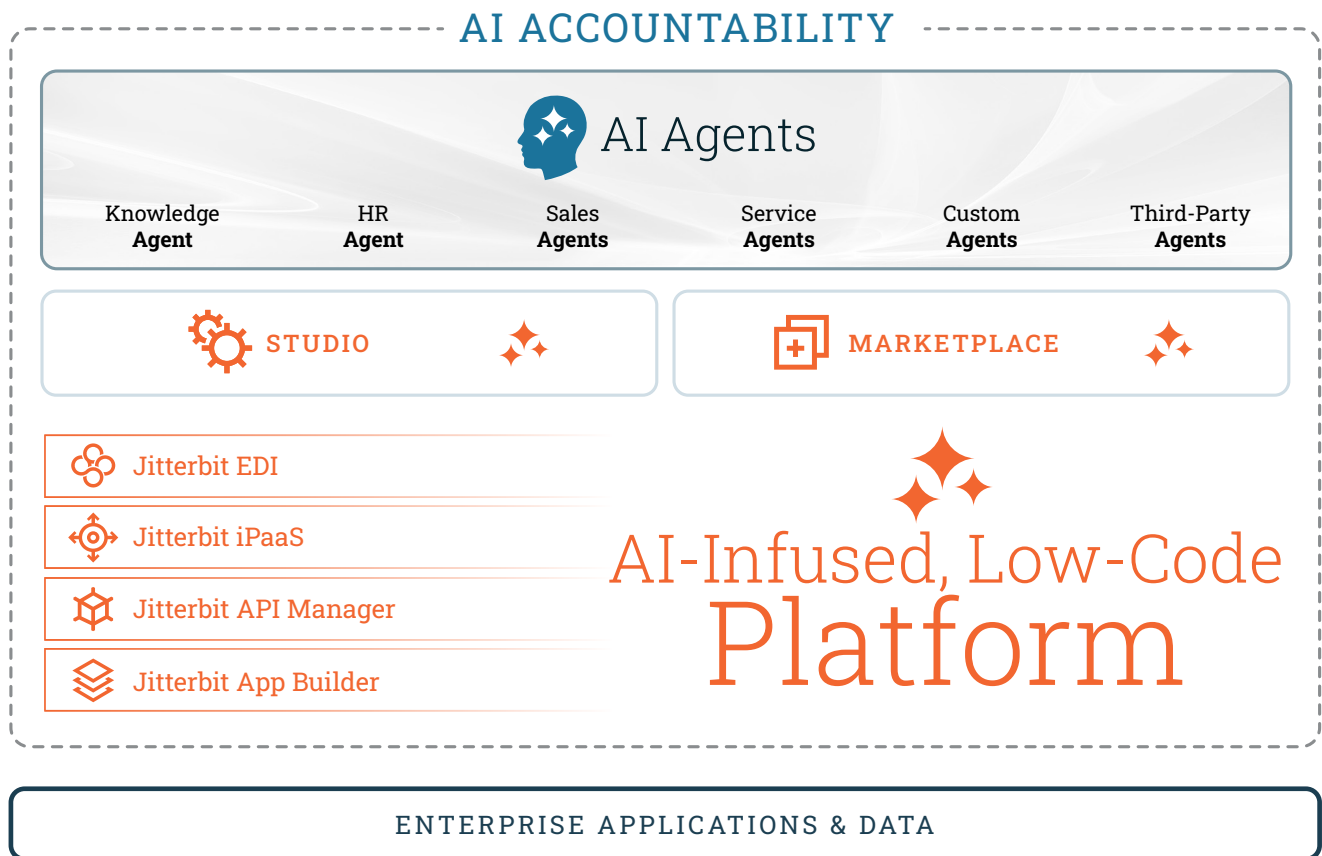

As the first in its category to achieve ISO/IEC 42001 certification, the Jitterbit Harmony platform meets the international standard for responsible AI management. Its layered architecture — aligned with industry frameworks like NIST, CSA, CISA and

CERT — delivers comprehensive protection across the platform. Harmony helps ensure the traceability, oversight and accountability needed to confidently deploy secure, enterprise-grade AI agents at scale.

“Jitterbit Harmony is at the heart of our AI journey. It has enabled us to build AI agents capable of interacting effortlessly with our complex enterprise systems – driving efficiency, sparking innovation, and ensuring accountability across our business.”

— Ankur Budhiraja  
Director of Software Engineering, Keysight Technologies

The Harmony AI Bundle is for new Jitterbit customers. For more information about Jitterbit’s intelligent automation capabilities, AI assistants and autonomous agents, visit [jitterbit.com/harmony](https://jitterbit.com/harmony).
