

Jitterbit iPaaS AI Bundle

Integrate faster. Manage APIs smarter.
Automate intelligently. All at an Exclusive Bundled Price.

Connect, Build and Automate, with Single Platform Simplicity

The Jitterbit iPaaS AI Bundle extends your App Builder investment with seamless integration, advanced API management and AI-powered capabilities — streamlining operations and enabling scalable growth.

This comprehensive offer brings together iPaaS, API Manager, AI assistants and agents to accelerate connectivity, simplify development and drive intelligent automation across your enterprise.

Leverage the low-code capabilities and pre-built connectors in Jitterbit iPaaS to quickly integrate cloud, on-prem and legacy systems. Create, publish and manage the full lifecycle of APIs with API Manager and API Manager Assistant. And empower even your most nontechnical teammates to build and deploy enterprise-grade apps faster using natural language prompts.

At the core is the AI-infused, low-code Jitterbit Harmony Platform—powering agility, automation, and real business outcomes.

By combining app development, integration and API management with Jitterbit's powerful AI capabilities, you can break down data silos, enable secure and scalable end-to-end connectivity, and fuel business agility and innovation.

Everything You Need for AI-Powered APIs, Intelligent Automation & Seamless Integration

This bundle brings together all the essentials for fast-tracking AI-powered integration, APIs, app development and intelligent automation, all in one simple, scalable package:

- Access to the full capabilities of the AI-infused, low-code Jitterbit Harmony platform, including iPaaS and API Manager
- AI Assistants to unleash the full potential of intelligent automation, including API Manager AI Assistant and App Builder AI Assistant
- One pre-built, enterprise-hardened AI agent (Sales, HR or Knowledge Agent) — or the option to leverage Jitterbit professional services to build a custom agent, reducing implementation time and accelerating ROI
- 60 hours of Jitterbit Agentic AI Professional Services to jumpstart your AI success

Unlock the Power of AI Agents with Control & Security

The Jitterbit Agentic AI Professional Services team will help you deploy AI agents anchored in your own enterprise data. These tailored agents are delivered with end-to-end security, robust governance and strict access controls — empowering your organization to safely and confidently leverage their full potential.

The Benefits of the iPaaS AI Bundle

Unlock the power of iPaaS, API Manager, AI assistants and enterprise-grade AI agents. This scalable bundle is designed for rapid deployment and faster results, offering:

- **Accelerated Time-to-Value:** Prebuilt AI agents, or the option to build custom agents with help from Jitterbit AI experts, means faster deployment and ROI.
- **Seamless Integration, Simplified:** Leverage the API Manager AI Assistant and App Builder AI Assistant to simplify and speed app development, as well as API creation and publishing.
- **Secure and Governed:** Maintain full control and visibility with AI agents anchored in your own data. Built with enterprise-grade security, compliance and governance at the core, these agents help ensure safe, reliable and accountable automation at scale.
- **One Platform. Total Control:** Design, deploy, govern and scale integration, apps, APIs and AI agents — all from within the Jitterbit Harmony platform.

A Closer Look at What You'll Get:

Unified platform

Design, govern and scale apps, APIs and integrations powered by AI-assistants and agents from one central control point in Jitterbit Harmony.

AI-powered API management and app development

Build APIs and new applications faster with guidance from Jitterbit AI assistants, such as API Manager AI Assistant and App Builder AI Assistant.

Pre-built, enterprise-ready AI agents

Deploy Sales, HR or Knowledge Agent, configured and tailored to your environment.

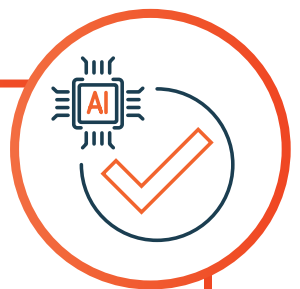

- *Sales Agent:* Effortlessly surface account data, deal information and more to empower your sales team.
- *HR Agent:* Automate onboarding, training, IT support and more to simplify and enhance employee experience.
- *Knowledge Agent:* Instantly unlock and present enterprise knowledge by accessing data across systems, apps, data sources and repositories — eliminating data silos and delays.

Professional Services with AI expertise

Includes 60 hours of Jitterbit Agentic AI Professional Services to ensure fast, effective and successful AI Agent deployment, as well as best practices to optimize automation outcomes and deliver immediate results.

Who this offer is for:

The iPaaS AI bundle is available to existing Jitterbit App Builder customers.
