

Workday-Coupa Employee Expense Process Template

Introduction

When a new resource joins an organization, HR stakeholders must complete time-consuming steps to provide the new hire with access to expense reporting. Those steps involve the coordination of multiple systems of record, which slows productivity and invites room for human error. Jitterbit's Workday-Coupa expense process template quickly automates these steps, so both you and your new hire can be more productive elsewhere. The template automates user ID creation in Coupa, once a user is set up in Workday. It also automates the creation of departments in Coupa from those created from cost departments in Workday, and the creation of expense reports in Workday from those created in Coupa.

Expense report account management is a snap with Jitterbit's Employee 360 solutions. The template is a pre-packaged solution for integrating Workday Human Capital Management (HCM) to Coupa. The Workday-Coupa Employee Expense Process Template provides a fast and easy way to integrate key expense processes together to increase time to productivity for all key stakeholders.

BUSINESS PROBLEMS SOLVED:

- Automate the creation of user IDs in Coupa expense management from those built in Workday HCM
- Automatically establish cost departments in Coupa from Workday
- Effortlessly submit approved expense reports from Coupa into Workday for payment processing

BUSINESS OUTCOMES

1. Faster access to expense management solutions for new employees
2. Increased productivity for HR stakeholders by automating expense report processes
3. Increased employee satisfaction and morale by accelerating time to pay

VALUE TO CUSTOMERS:

- Packaged solution speeds expense management account setup and reduces technical support requirements
- Automatic creation of cost centers and departments that saves time for both new employees and HR managers
- Easily customize on top of pre-packaged templates. Pre-built integrations accelerate your time to deploy by 50-80%.

BUSINESS BENEFITS:

- Automate the creation of Users in Coupa when New Workers are created in Workday
- Automate the creation of Expense Category in Coupa when Expense Items are created in Workday
- Automate the creation of Departments in Coupa on creation of Cost Centers in Workday
- Automate the creation of Expense Report in Workday when Expense Report is approved in Coupa

The API Lifecycle of an Employee

Deliver Connected Employee Experiences

According to HR industry analysts, the average company has between 60 and 100 systems that need to be integrated. To stay competitive, Jitterbit Harmony connects data, people and devices together to streamline HR business processes and enable a seamless Employee 360 experience.

Jitterbit empowers businesses to optimize their connectivity and scalability through a single integration and workflow automation platform. Our mission is to turn complexity into simplicity so your entire organization can work faster and more efficiently.
