These prebuilt, enterprise-ready AI agents streamline complex workflows, deliver real-time responses and boost productivity — accelerating time-to-market for your most critical business processes.

Everything You Need to Implement AI Agents — in One Powerful Bundle

The bundle brings together everything you need to turn AI-powered intelligent automation into real business results — all in one simple, scalable package:

- One pre-built, enterprise-hardened AI agent (Sales, HR or Knowledge Agent)

- AI Assistants to unleash the full potential of intelligent automation, including App Builder AI Assistant and API Manager AI Assistant

- Access to the full capabilities of the AI-infused, low-code Harmony platform
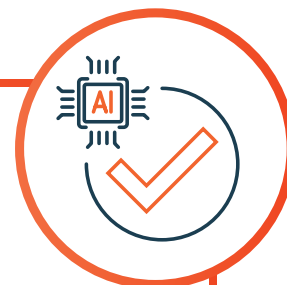

- Jitterbit Agentic AI Professional Services

Unlock the Power of AI Agents with Control & Security

Jitterbit Agentic AI Professional Services, with deep AI expertise, will help you deploy AI agents anchored in your own enterprise data. These tailored agents are delivered with end-to-end security, robust governance and strict access controls. This means your organization can safely leverage the full power of AI agents with confidence.

Why Jitterbit AI Connect?

Unlock the power of enterprise-grade AI agents with a scalable bundle designed for rapid deployment and faster results. It offers several benefits, including:

- *Accelerated Time-to-Value:* Prebuilt AI agents + professional services with AI expertise means faster deployment and ROI.

- *Secure and Governed:* Maintain full control and visibility with AI agents anchored in your own data, built with enterprise-grade security, compliance and governance at the core — ensuring safe, reliable and accountable automation at scale.

- *One Platform. Total Control:* Design, deploy, govern and scale AI agents — all from within the Jitterbit Harmony platform.

What You Get:
