> "Back-to-back recognition as No. 1 in the G2 Enterprise Implementation Index for iPaaS shows that our customers aren't just experiencing great results once — they're seeing consistent value delivered quarter after quarter.
>
> This reflects not only the speed of our implementations, but also how easy it is for teams to get up and running and adopt the platform fully. With shorter go-live timelines, high ease-of-setup scores, and strong user adoption, Jitterbit is helping enterprises realize measurable business outcomes faster than the industry average."

— **Bill Connor**
CEO, Jitterbit

⚡ G2 Recognition Across the Jitterbit Platform

Jitterbit's unified Harmony platform continues to stand out across a wide range of categories. For Fall 2025, Jitterbit earned 26 badges across G2's enterprise, mid-market and small business grid reports, including:

- **5 Leader Badges** for iPaaS and EDI
- **12 High Performer Badges** for Workplace Innovation, API Management, RAD, Low- and No-Code Development
- **4 Badges** for EDI – Highest User Adoption, Best Estimated ROI and Fastest Implementation
