Now at an Exclusive Bundled Price.

## Supercharge App Development & Automation with AI

The Jitterbit AI Transform: Intelligent Application Bundle empowers IT teams to rapidly build and deploy web, mobile and system apps with embedded agents, scaling AI-powered automation across the enterprise.

Jumpstart your agentic AI journey with prebuilt, enterprise-ready AI agents — designed to streamline complex workflows and automate critical business processes where it matters most. Pair agents with AI assistants that guide your app development, data integration and automation projects in real time, helping your team move faster.

Built for rapid deployment and seamless integration, this scalable bundle will help boost productivity, accelerate time to market and deliver operational gains — all at maximum value.

## Everything You Need for AI-Powered App Dev & Automation

The bundle brings together all the essentials to speed app development, intelligent automation and innovation — in one simple, scalable package:

- One prebuilt, enterprise-hardened AI agent (Sales, HR or Knowledge Agent)
- AI assistants to unleash the full potential of app development and intelligent automation, including API Manager AI Assistant and App Builder AI Assistant
- Access to the full capabilities of the Jitterbit Harmony platform
- Access to Jitterbit Agentic AI Professional Services

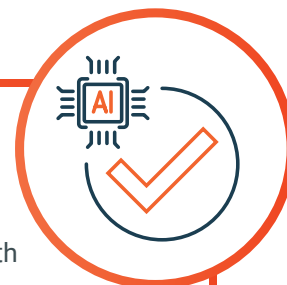

## Unlock the Power of AI Agents with Control & Security

The Jitterbit Agentic AI Professional Services team will help you deploy AI agents anchored in your own enterprise data. These tailored agents are delivered with end-to-end security, robust governance and strict access controls — empowering your organization to safely and confidently leverage their full potential.

## Why Jitterbit AI Transform?

Unlock the power of enterprise-grade AI agents with a scalable bundle designed for rapid deployment and faster results. It offers several benefits, including:

- **Accelerated Time-to-Value:** Prebuilt AI agents and our Agentic AI Professional Services experts greatly accelerate deployment and ROI.
- **Secure & Governed:** Maintain full control and visibility with AI agents anchored in your own data. These agents are built with enterprise-grade security, compliance and governance at the core — ensuring safe, reliable and accountable automation at scale.
- **Innovate & Deliver Apps Faster:** Harness the power of App Builder AI Assistant to build, evolve, and scale apps with agility to fuel continuous innovation.
- **Seamless Integration, Simplified:** Leverage the API Manager AI Assistant to simplify complex integrations effortlessly.
- **One Platform. Total Control:** Design, deploy, govern and scale AI agents from the unified, AI-infused low-code Jitterbit Harmony platform.
