

Workday-Salesforce Employee Onboarding and Offboarding Process Template

Introduction

Improve your employee experience with Jitterbit's Worker API 360 Solution for employee onboarding and offboarding. Workday defines Worker as contingent workers and employees. Jitterbit has a history of expertise in Workday "Worker" and Salesforce "Customer" ecosystems. As part of our focus on use case expertise, we are delivering go-to-market templates that are quick to deploy. We've created these pre-packaged solutions for popular use cases, so customers can easily stand up their integration projects in days, not weeks or months.

Jitterbit's Workday-Salesforce Employee Onboarding and Offboarding Process Template is a pre-packaged solution for integrating Workday Human Capital Management (HCM) to Salesforce Sales Cloud. The Workday to Salesforce Process Template provides a unified experience for common employee onboarding and off-boarding processes.
