By clicking a box indicating acceptance to the terms and conditions of this Agreement or by executing an Order Form that references this Agreement, Client agrees to be bound by all terms and conditions hereof.

1. Definitions

1.1 “Affiliate” means any entity that directly or indirectly controls, is controlled by, or is under common control with the subject entity. “Control,” for purposes of this definition, means direct or indirect ownership of control of more than 50% of the voting interests of the subject entity.

1.2 “Client Data” means all of Client’s electronic data processed by the Jitterbit Applications in connection with Client’s use of the Jitterbit Web Management Console or a Cloud Implementation, including but not limited to Regulated Personally Identifiable Information.

1.3 “Cloud Implementation” means the deployment of the Jitterbit Agent Software and/or Jitterbit Connectors via the Hosting Environment. For clarity, Cloud Implementations never entail the permanent storage of any Client Data in either the Jitterbit Applications or the Hosting Environment, or any temporary storage except during transmittal of such Client Data to and from an Integrated Third Party Application.

1.4 “Documentation” means the online user guides and reference documentation for the Jitterbit Applications, as updated from time to time, accessible via: <http://support.jitterbit.com>.

1.5 “Hosting Environment” means the hardware, software, networks, and peripherals used by Jitterbit or its third party hosting providers to host the Jitterbit Web Management Console and the relevant Jitterbit Applications.

1.6 “Jitterbit Application(s)” means, collectively, the then-current, generally available versions of:

(a) “Jitterbit Agent Software” consisting of software that implements the transfer of Client Data between Integrated Third Party Applications based on the API policies selected by Client. Agent Software may be installed locally by Client via an On Premise Implementation (“Local Agents”) or it may be hosted by Jitterbit via a Cloud Implementation (“Cloud Agents”).

(b) “Jitterbit Connectors” consisting of either: (i) out-of-the box connectors to specific third party applications (such as Salesforce.com or NetSuite) (“Standard Connectors” or “Enterprise Connectors”), and/or (ii) standards-based

connector protocols (such as those generically used for web services interfaces or native databases) (“Real-Time APIs”), and/or (iii) Jitterbit-supplied API gateway (“Cloud API Gateway”) and/or API management functionality (“API Manager”).

(c) “Jitterbit Studio Visual Designer” consisting of Jitterbit’s downloadable, design and testing application.

(d) “Jitterbit Web Management Console” consisting of the portions of the Jitterbit Application hosted via the Hosting Environment that provide integration project management and User administration features and functions for Client.

(e) and any copies, updates, upgrades, enhancements and other derivative works of the foregoing are provided by Jitterbit, including the Documentation.

1.7 “Integrated Third Party Application(s)” means either on-premise or hosted Client or third party applications, excluding the Jitterbit Applications. Each connection between the Jitterbit Application and an Integrated Third Party Application is referred to as an “Application Connection” or “Endpoint.”

1.8 “On Premise Implementation” means the deployment of the Jitterbit Agent Software and/or the Jitterbit Connectors on systems owned or operated by or for the benefit of Client.

1.9 “Order Form” means the ordering document entered into between Client and Jitterbit or any of its Affiliates, including any addenda and supplements thereto, for the purchase of subscriptions to the Jitterbit Applications, Support Services or Professional Services, which specify Client’s entitlement to the Jitterbit Applications and applicable usage limitations on use of the Jitterbit Applications. The Order Form shall incorporate the terms of this Agreement.

1.10 “Regulated Personally Identifiable Information” means personally-identifiable information that consists of: (i) government-issued identification number of any kind, (ii) health, genetic, biometric record or data, (iii) financial or bank account number, credit or debit card number, with or without any required security code, access code or any personal identification number or password that would permit access to the individual’s financial account. Name, age, email address, and/or mailing address alone are not Regulated Personally Identifiable Information.

1.11 “Professional Services” means Training Services, implementation services, and other professional services that the parties may agree Jitterbit will perform for Client pursuant to a mutually agreed upon Statement of Work.

1.12 “Security Incident” means an event in which Client Data processed by Jitterbit is accessed or received by an individual or entity not authorized to access or receive such information.

1.13 “Statement of Work” or “SOW” means a mutually agreed upon document that describes at a minimum: (i) the Professional Services to be rendered; (ii) the schedule for providing the Professional Services; and (iii) associated pricing. Each SOW will be subject to, and will reference this Agreement.

1.14 “Subscription Term” means the period of authorized access and/or use of the Jitterbit Applications set forth in the Order Form.

2.1 Trial Services. Jitterbit may from time to time, permit Client to register for a free trial of certain Jitterbit Applications at <http://www.jitterbit.com> (“Trial Services”). 2.2 Non-GA Services. From time to time Jitterbit may invite Client to try, at no charge, Jitterbit products or services that are not generally available to Jitterbit’s customers (“Non-GA Services”). Client may accept or decline any such trial in its sole discretion. Any Non-GA Services will be clearly designated as beta, pilot, limited release, developer preview, non-production or by a description of similar import.

2.3. Restrictions and Disclaimers. Trial Services and Non-GA Services are provided for evaluation purposes and not for production use, are not supported, may contain bugs or errors, and may be subject to additional terms. Trial Services and Non-GA Services are not considered “Jitterbit Application” hereunder and are provided solely and exclusively “AS IS” with no express or implied warranty of

any kind. CLIENT ASSUMES AND UNCONDITIONALLY RELEASES JITTERBIT FROM ALL RISKS ASSOCIATED WITH THE USE OF ANY TRIAL SERVICES AND/OR NON-GA SERVICES. Jitterbit may discontinue the Trial Services or Non-GA Services at any time in its sole discretion. Jitterbit does not promise or represent that Non-GA Services will be made generally available.

2.5. LIMITED LIABILITY. JITTERBIT’S ENTIRE LIABILITY IN CONNECTION WITH ANY USE OF THE TRIAL SERVICES, OR NOT-GA SERVICES WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WILL NOT, AS TO ANY INDIVIDUAL CLAIM OR IN THE AGGREGATE, EXCEED \$50. IF CLIENT DOES NOT AGREE TO THE ALLOCATION OF RISK IN THIS SECTION, ITS SOLE RECOURSE IS TO IMMEDIATELY DISCONTINUE THE USE OF THE TRIAL SERVICES OR NON-GA SERVICES.

3. Jitterbit Application Use Rights.

For example, Client may elect to install the Jitterbit Agent Software via an On Premise Implementation but access the Jitterbit Connectors via a Cloud Implementation, in which case the rights in subsection 3.1 (i) shall apply to the Jitterbit Agent Software and the rights in subsection 3.1.(ii) shall apply to the Jitterbit Connectors (in either case, to the

exclusion of the other license right as to the specific item). Client will access and use the Jitterbit Applications solely: (a) for Client's internal business purposes to effect the transmittal of Client Data between Integrated Third Party Applications; (b) in accordance with Documentation and applicable law; and (c) in accordance with the authorized level of functionality and quantity for purchased by Client. 3.4. Integrated Third Party Applications. The Jitterbit Applications contain features designed to interoperate with Integrated Third Party Applications. Client is solely responsible for obtaining and maintaining access to Integrated Third Party Applications from the applicable providers. Jitterbit is not liable to Client hereunder and shall not provide Client with any refund, credit, or other compensation for any errors, delays, downtime, or nonperformance of the Jitterbit Applications caused by the temporary or permanent unavailability of the Integrated Third Party Application, or if Client terminates Client's subscription or license to the Integrated Third Party Service. If Client establishes an integration between the Integrated Third Party Application and a Jitterbit Application made available via a Cloud Implementation, Client hereby authorizes Jitterbit to access and transmit Client Data to and/or from the Integrated Third Party Application during the Subscription Term and subject to Jitterbit's other obligations under this Agreement incident to such transfer. Jitterbit is not responsible for any disclosure, modification or deletion of Client Data occurring in or caused by a Third Party Integrated Application.

3.5. Third Party Service Providers. Client may select third parties other than Jitterbit to perform implementation and other consulting services related to Client's use of the Jitterbit Applications. Any acquisition by Client of such non-Jitterbit services is solely between Client and the applicable provider. Jitterbit does not endorse or warrant implementation or other consulting services performed by any third party, whether or not such third parties are recommended by Jitterbit, participants of any Jitterbit partner program, and/or designated by Jitterbit as "certified" or "accredited" other such similar reference. Client is solely responsible for ascertaining whether such third parties providers meet Client's needs.

4. Uptime Commitment.

Jitterbit will use commercially reasonable efforts to make (i) the Jitterbit Agent Software and Jitterbit Connectors, if and to the extent hosted by Jitterbit as part of a Cloud Implementation, and (ii) the Jitterbit Web Management Console available 99.50% of the time ("Uptime Percentage") excluding: (1) periods during a Subscription Term in which Client is not logged into such Jitterbit Applications; (2) planned downtime; and (3) unscheduled downtime caused by: (a) circumstances beyond Jitterbit's or its contractors' reasonable control (including, but not limited to: acts of God, acts of government, flood, fire, earthquake, civil unrest, acts of terror, strike or other labor problem, hosting provider failure or delay, issues related to Third Party Integrated Applications, or denial of service attacks); (b) circumstances entitling Jitterbit to suspend access to the Jitterbit Applications under Section 12 and Section 11.4; and (c) a User's failure to use the Jitterbit Applications in accordance with the Documentation.

5. Support Services.

6.1. Performance of Professional Services. If mutually agreed upon between the parties in an Order Form or Statement of Work, Jitterbit will perform Professional Services as described therein. The provision of Professional Services by Jitterbit is dependent on Client providing: (a) reasonable access to relevant resources; (b) all relevant information; and (c) timely decisions and input in connection with those Professional Services. In the event of any delays in Client's provision of such assistance, Jitterbit may adjust any agreed timetable or delivery schedule as reasonably necessary.

6.2. Right to Use Deliverables. Jitterbit hereby grants to Client a non-exclusive, non-transferable (except in connection with a permitted assignment) right and license during the Subscription Term to use deliverables prepared

or created by Jitterbit in the course of performing the Professional Services (other than Training Materials, which are subject to Section 7 below), subject to the same terms and conditions applicable to Client's authorized use of the Jitterbit Applications. Jitterbit retains all right, title and interest in and to Jitterbit's Professional Services templates, methodologies, tools, know-how, and any modifications, enhancements or derivative works of the Jitterbit Applications, Documentation, Training Materials, and Jitterbit's Confidential Information used to deliver the Professional Services and/or incorporated into a deliverable (collectively, "Jitterbit IP"). To the extent that any of the foregoing rights in the Jitterbit IP vest in Client for any reason, Client hereby assigns and transfers without reservation or rights of reversion all of Client's right, title and interest in and to any and all of the foregoing Jitterbit IP without further compensation. Should the foregoing assignment be unenforceable, in whole or in part, for any reason, Client hereby grants Jitterbit an exclusive, irrevocable, perpetual, royalty-free, worldwide right and license to use the Jitterbit IP for any and all business purposes without further compensation or a duty of accounting to Client.

In connection with the Hosting Environment used to make the Jitterbit Applications available to Client part of a Cloud Implementation, Jitterbit will operate an information security program designed to protect Client Data processed through the Hosting Environment utilizing industry standard policies and technologies. Jitterbit will only utilize hosting providers who maintain a current SSAE 16 SOC 1 report (or industry-accepted successor security standard) consisting of a comprehensive internal controls assessment report covering the internal controls and information security related to its hosting services, prepared by a third party auditor. If Jitterbit and Client agree that Client Data will include patient health records as defined by HIPAA, then the supplemental terms and conditions at the URL www.jitterbit.com/BAA shall apply with respect to Jitterbit's processing of such data.

8.2 Security Incidents. Jitterbit will take prompt action to respond to any Security Incident and to prevent the further unauthorized use or disclosure of Client Data, and/or to correct the issues within the Hosting Environment, the Jitterbit Web Management Console, or the Jitterbit Application deployed via a Cloud Integration giving rise to such Security Incident. Jitterbit will notify Client promptly, but in no event later than three (3) business days from discovery, upon completing its forensic investigation related to a verified Security Incident.

8.3 Encryption. To the extent that personally-identifiable information about a User is stored on the Jitterbit Web Management Console (excluding, in all events, Regulated Personally Identifiable Information, which shall not be uploaded by Client onto the Jitterbit Web Management Console), such identifiable data will be encrypted by Jitterbit using industry-standard encryption methods for this kind of data. To the extent that Client transmits Client Data, including any Regulated Personally Identifiable Information through any Jitterbit Application other than the Client Console, Client is solely responsible for encrypting such Client Data and/or Regulated Personally Identifiable Information, including by setting, managing, monitoring, and enforcing the applicable policies with respect to the encryption of such. Client acknowledges and agrees that Jitterbit is not responsible for any loss, alteration, or unauthorized access or transmittal of such data, to the extent that such results from Client's failure to comply with the encryption requirements in the preceding sentence.

9. Client Data.

9.1. Jitterbit's Use of Client Data. The foregoing right and license shall terminate upon the earlier of (a) completion of the Support Service or Professional Service, if Client Data is processed in connection with the same, (b) expiration or termination of the Subscription Term, (c) termination or expiration of this Agreement, or (d) upon Client's written notice to Jitterbit to such effect.

9.2 Obligations of Client. The parties expressly agree that, with respect to any Client Data actually processed by Jitterbit pursuant to Section 9.1 above, Client is the data controller and Jitterbit is a data processor. Client acknowledges and agrees that Client Data may be transferred outside the country where it is located if and as necessary to effect the transfer of such Client Data as established by Client's API policies and procedures in the Jitterbit Applications, in which case Client is solely responsible for ensuring that it is lawfully entitled to transfer and authorize Jitterbit to transfer the relevant Client Data to Jitterbit so in accordance with this Agreement. Client will ensure that the relevant third parties

have been informed of, and have given their consent to, such use, processing, and transfer as required by all applicable data protection legislation.
