What you can integrate with VTEX

- **ERP platforms,** to synchronize stock information, orders, billing, and other essential processes.

- **Data sharing** of customer information, purchase history, and other relevant details with CRM solutions.

- **Secure payment processing** with providers.

- **Logistics and transportation systems,** facilitating freight calculation, shipment tracking, and efficient logistics management.

- **Marketplaces** for selling products across multiple channels, expanding the reach and visibility of your online store.

- **POS systems** used in your physical stores to increase visibility.

- **Omnichannel operations applications,** ensuring agile and effective connection between all existing resources.

What are the benefits of these integrations?

- **Increased productivity** through process automation and workflow, eliminating manual tasks and reducing errors.

- **Centralized management and monitoring** of various business aspects such as inventory, orders, payments, and logistics.

- **Real-time data updates** to prevent out-of-stock sales and data inconsistency issues.

- **Scalability and flexibility** to handle business growth by seamlessly adding new systems and sales channels.

With Harmony, the first integrations are implemented in just a few days!
