Jitterbit

Adobe Commerce Integration from Jitterbit

End-to-end commerce integration from Adobe Commerce to your ERP, CRM, 3PL, and more to improve the customer experience for your enterprise.
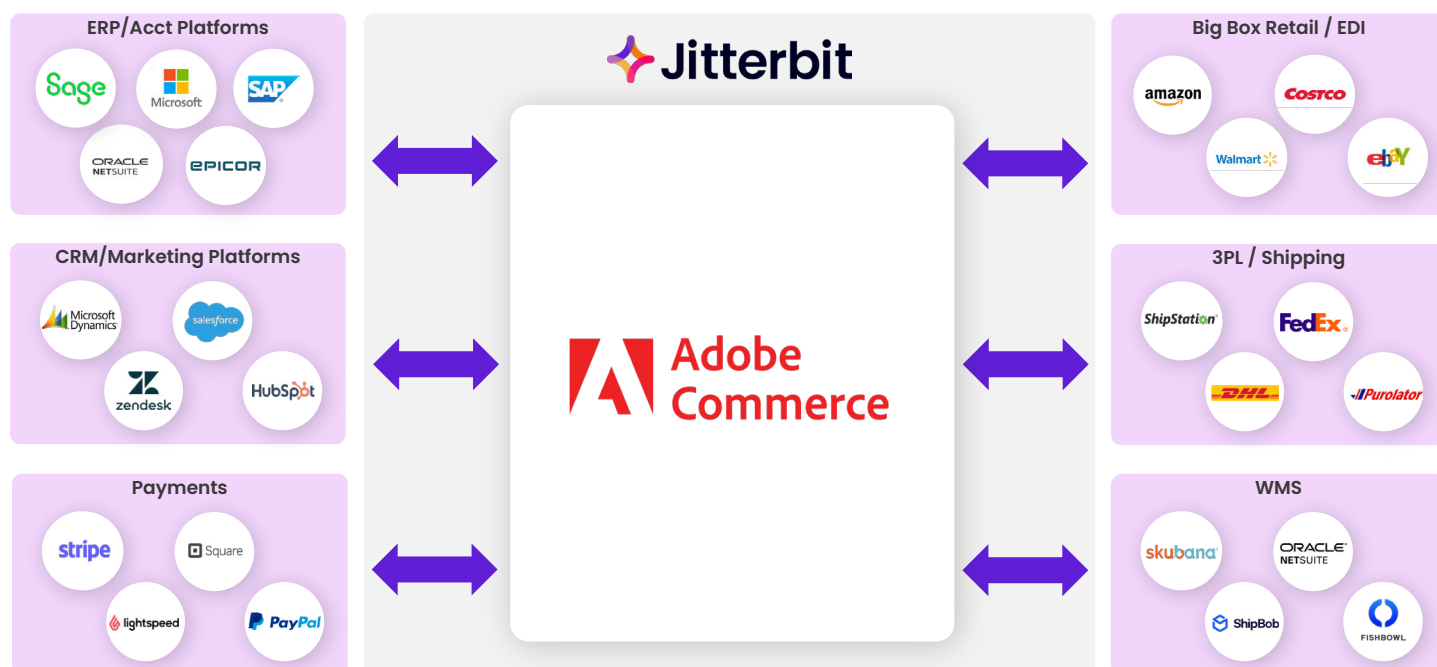

Deliver omnichannel experiences for your customers and streamline workflows through hyperautomation between Adobe Commerce and your back-end systems to eliminate data silos and manual processes.

One Platform to Connect to Your Many Systems

Jitterbit uses pre-built integrations specific to Adobe Commerce, ensuring a seamless connection between your web store, brick and mortar, or a combination of the two. With Jitterbit you will deliver end-to-end B2C and B2B commerce experiences from a unified, scalable platform.

Our integration solution connects Adobe Commerce to your ERP, CRM, 3PL (and more) to automate critical business processes and data transfers between applications. This reduces manual workflows such as order, shipment, and inventory processing, while providing a single source of truth for commerce data. Automating workflows eliminates errors and departmental silos by ensuring data consistency across applications with automation.

JUST A SAMPLE OF THE APPLICATIONS AND SYSTEMS WE CAN INTEGRATE ADOBE COMMERCE WITH

Why Brands Choose Jitterbit

Jitterbit offers more than two decades of retail and commerce experience to help businesses like Everlast, a global leader in authenic boxing, MMA, and fitness related sporting goods, equipment, apparel, footwear, and accessories. Working in tandem with Everlast's web team, Jitterbit migrated Everlast from Magento to Adobe Commerce, developing bi-directional workflows that allow for seamless, real-time data exchanges between Adobe Commerce and Microsoft Dynamics AX including:

- Orders from Adobe Commerce to AX
- Inventory from AX to Adobe Commerce
- Shipments from AX to Adobe Commerce

B2B and B2C Integration

- Integrate payment, tax, inventory, shipping solutions, and more with Adobe Commerce for a 360-degree view of all commerce data
- Automate customer, order, and SKU data to your web store and ERP
- Automate customer and pricing segmentation, punch out, POs, and net payment terms
- Integrate engagement channels into your Adobe Commerce store front to provide omnichannel experiences for your customers' roles, and integrations with major ERP, order management, and CRM systems
